Wednesday evening. Both were drunk. One
of them, Maude Payne by name, was considerably bruised, but not scriously injured. J. C. Wilcox, H. C. Raymond and J. R. Rice donated a large lot of flowers for Decoration day, for which the executive commit-tee of the Grand Army wishes to return thanks; also to the Woman's Relief corps,

who arranged them. Special services will be held at the Young Men's Christian association rooms at o'clock Sunday, June 3, in commemoration of the fiftieth anniversary of the first Young Mon's Christian association organization. Everybody is invited to attend.

Harry Thornton, the crook who stole a purse from Mrs. Bonham Wednesday aftermean at the building where the ladies of the Methodist church were giving dinner, was given thirty days in the county jail yesterday by Judge McGee for the theft.

One of Frohman's companies will present Oscar Wilde's social comedy, "Lady Windernere's Fan," at Dohany's this eveing. This is one of the latest and greatest of the atrical successes, and the opera house should be filled to its utmost capacity.

The American Railway union will meet at the hall of the Patriotic Order of Sons of America, on Broadway, on Saturday evening at 8 o'clock, to elect a delegate to the general assembly at Chicago. All railway men are invited. Per order E. H. Ott, secretary.

Next Sunday evening a twilight service will be instituted at St. Paul's church, commencing at 6:45 o'clock and lasting forty minutes. The sermon will be omitted and the service shortened, the music being made an important feature. This plan will be followed during the month of June. Tomorrow will be ladies' day at the races

and every lady will be admitted free of charge. This will be the opportunity for the ladies of Council Bluffs and Omaha to see the races and for the rest of the world to see the ladies. There will be some fine races, and the day will be an event. The arguments of the attorneys in the con-

spiracy case against Rackwitz, Hall, Limerick and Kerns were commenced in Justice Vien's court yesterday, all the evidence having been heard. The attorneys had not succeeded in unreeling all they had wound up at the time of adjournment, and they will pick up the thread again this morning. Eugene Rogers was arrested yesterday or

DFFICE - - NO. 12 PEARL STREET Application of the Martin Mulct Law to Local Saloons Impending.

NO RUSH FOR THE PRIVILEGE AS YET

Only Four Applications Are on File by Prospective Dealers in Wet Goods -Assessor Hardin Will Begin Listing Locations Today.

The city council will hold a meeting next Monday evening, at which the momentous question of whether or not saloons shall be allowed to run in Council Bluffs under the mulct law will come up for settlement. There is not much doubt as to which way this will be decided. Applications for permission to engage in the saloon business will have to be filed with the city clerk before 5 p. m. on Monday. This includes all dealers in liquor excepting registered

There has not been much of a rush in the matter of filing bonds by prospective salconists. Only four have been filed so far. As the law is already in force, each of the saloon keepers that has neglected to file a bond is really subject to prosecution. From the fact that there have been so few to comply with the letter of the law in this respect, it is thought by some that the authorities do not expect to be too strict in regard to the numerous details that make the path of the saloon keeper such a thorny one. They will be required to put up their cash every month to the city, and every quarter to the county, and their liability will practically end there. Assessor Hardin will make his first round today.

Charles Lunkley, the well known undertaker, will occupy the building at 238 Broadway after May 20. Various improvements will be made which will give him one of the finest undertaking establishments in the west.

Improvements at Manawa. Lake Manawa will be in it more than everthis season. The thousands familiar with the great pleasure resort, as it has appeared for the past few seasons, will scarcely be able to recognize it when they visit it at the opening this season. The hotel has given place to an artistically beautiful pavilion nearly 200 feet long, with a central dancing floor 40x90, constructed so that it can be quickly enclosed in case of a storm or bad weather. At each end is a bastion fifty feet in diameter, with solid walls studded with numerous windows. These are filled with chairs and refresh-ment tables, where people can lounge, rest. eat or drink. The refreshment booths will be at the sides. In front of this main pavilion and ex-

tending several hundred feet along the lake front is the new bathing beach. Thousands of cubic yards of clean sand has been dumped into the water, and a new bottom made for the lake, extending into water ten feet deep, and reaching to the bar at the point of the island. The entire front has been planked with two-lich oak lumber, and the angriest waves can find nothing more movable than the white sands to play with. The bath houses adjoin the pavilion, and they are permanent houses, not temporary sheds. The new beach will be very popular on ac-count of it not being necessary to go across the lake to bathe. Lots of new novelties to make a plunge in the water still more enticing have been added.

A great deal of work has also been done on the Manawa rallway. The entire road-bed has been reconstructed, with new crossings and new oak ties, and quick time will be made. The trains will be running Saturday, and Sunday will be a big day.

The fire department was called out three times yesterday morning. About 4 o'clock a lamp exploded in the Midway saloon, 2020 Broadway, in one of the upstairs rooms. The fire was extinguished after about \$100 worth of damage had been done. About twenty minutes later, and before the firemen had left the scene of the first

fire, there was another alarm. It was from the corner of Thirty-fourth street and Ave-nue A in a house belonging to the Omaha Security company and occupied by Tom Wittig and family. Wittig was at a loss to know whether a lamp exploded or was tipped over by his wife, but attributes the blaze to one of the two causes. On account of the scarcity of fire hydrants in that part of the city it was impossible to extinguish the flames, and the whole building, with its con-tents, was burned down. The loss is esti-mated at about \$800 and is covered by insurance. Wittig claimed to have lost \$100 in cash, which he had hidden under his when he retired.

At 11 o'clock a third alarm came in, this time from the house at 1829 Avenue F. occupied by D. S. Kerr as a residence. The fire was the result of a gasonne stove explosion. The damage amounted to only \$10.

Underwood People Looking for a Tramp Who is Badly Wanted.

George Smith, a prosperous farmer who lives six and a half miles south of Underwood, went home for dinner from the field where he had been working and found that his wife had been made victim of a criminal assault during absence. About in the morning she started to the spring a distance from the house to lead colt to water. On the way she was knocked down by a tramp, beaten almost into in-sensibility and a handkerchief stuffed into her mouth to prevent her outcry from being heard. The tramp accomplished his purpose and got away a couple of hours before Mr. Smith's return. When the deed was discovered Smith rode to Underwood and notified the people there what had happened. A posse of citizens, about thirty-five strong. organized in a few minutes armed with shotguns, and a search was made throughout the vicinity. It was claimed the tramp left the farm in a southeasterly direction and a thorough search was made through

The jury in the case of Ira Jones against Frank Cooper, after being out for thirty-six hours, returned a sealed verdict, which was opened by Judge Thornell yesterday morning. All day Wednesday there was one member of the jury who hung out, all the rest being in favor of a verdict for the defendant. The jurymen asked to be discharged, but Judge Thornell was inexorable. When the verdict was opened yesterday it was found that the recalcitrant juror had come to time and the verdict was for the defendant. The case was one in which Jones asked for \$10,000 damages from Cooper for the alienation of the affections of his wife. Both the defendant and Mrs. Jones admitted their intimacy. Jones and his wife are living together, not-withstanding.

Some of the criminal cases of a minor na ture will be taken up next Monday, and the following two days will be occupied mainly with civil suits. It is thought that by the middle of the week the criminal cases will be taken up in earnest. The following assignment was made of trials for the first three days of the week:

TENEMENT HOUSE FIRE IN NEW YORK CITY

Fifteen Children Thrown from the Upper Windows to a Blanket Below-One Child Suffocated and Several Others Badly Injured.

NEW YORK, May 31.-A terrific explosion followed by a fire occurred at 4:30 o'clock

this morning in a distillery on the ground floor of a double tenement house, 129 Suffolk street, resulting in the death of Lizzie Yaegea, aged 4 years, and serious injuries to four others. Twenty families tenanted the building.

The explosion and fire cut them off from the stairway. Fifteen children were thrown from upper windows. Some of the older persons escaped by creeping on the narrow ledge of the second story to the window of the next house. Two men living in the house in the rear of the burning building got a blanket and used it as a net to each the children dropping from the windows above. The children had to be rescued through a sheet of flame which poured through the windows between the upper windows and the blanket. After the children had been rescued the older people jumped. Anthon Wenzel and his son made their perilous jump in safety, but his wife. who was quite heavy, broke the blanket by her great weight and she was severely in-The firemen arrived at this time and set to work to save the rest of the occupants of the building.

A curious crowd assemble 1 at the depot to witness the meeting between Root and his young wife, but they were deprived of seeing a reconciliation, which they expected, for it did not occur until the party reached Justice J. B. Kirsch's office. Then the little truant bride of a few weeks threw her arms about the neck of her aged husband, and begged his forgiveness. The "colone!" was very reluctant in granting the request made by Mrs. Root, but after a few moments of persuasive pleading he consented, and forgave and made up. Root notified the justice that he withdrew the charge, and Scott, Root's hired man, paid the costs in the case, and the elopement affair was at an end—for a time, at least. Root's wife is a clever little actress. merged and washed out for hundreds of feet in many places.
DENVER, May 31.—Reports from all directions give accounts of heavy rainfall and considerable damage. Rivers running through canons have become raging torrents, and many bridges have been swept away and trains delayed at many points in consequence. At Pueblo the Postal telegraph office was flooded to a depth of six feet and the Journal has been obliged to stop work. The damage throughout the state will be very extensive.

The rain which began falling here at 3 s

m. yesterday still continues. The Platte years, but no damage is reported. Rail-roads running west and south are all tied up by washouts.

All telegraph and telephone wires are down between Denyer and Pueblo and no news whatever had been received here up to 11 o'clock concerning the flood at Pueblo.

At the Rock Island office a dispatch was received from the Pueblo agent saying that there were two feet of water in the triangle block in the heart of the business district. Between Pueblo and Eden the Rio Grands tracks are under water. A bridge on the Rio Grande, twenty-five miles west of Pueblo has gone. Between Colorado Springs and Manitou 500 feet of Rio Grande track has been washed away and a bridge on the Colorado Midiand is gone. William Smith, a track repairer, was killed by a boulder which was washed down upon him. This is the only loss of life reported. VANCOUVER, B. C., May 31.—The Fraser river is still rising, and the indications are that the flood will be even more disastrous than the great flood of 1882. The river has already risen to within eight inches of the high water mark of that great inundation Though the whole valley is under water, teh Fraser having spread out into a vast lake, the tide is crawling up at the rate of an inch every three hours. At Nw Westminster the river wharves are submerged Many cabins along the water front have floated off on the tide, and many poor fam-ilies have lost all their belongings. Points further up the river report increasing dan ger. At Nicomen island forty-four fine farms are entirely under water. all their stock has gone down the river. All the river steamers have been commissioned by the government to service in securing the imperiled persons. In the vicinity of Ruby the greatest danger is apparent, and several steamers have been dispatched to that district. The marks of the great flood of 1882 have already been passed.

The Frazer river has risen three inches at Westminster during the past twenty-four hours and is still rising. At North Bend the water is a foot above the mark of the great floods of 1882. As the warm weather continues and there is still a large amount of snow in the mountains the river may be expected to rise much higher. Steamers are still busily engaged in rescuing settlers and cattle. An idea of the depth of the water may be gathered from the fact that a steamer drawing six feet of water passed over several islands in the center of the channel of the river. Last night the water reached fourteen inches over the Central Pacific tracks near Mission and no trains were dispatched today. No mail has been received here for eight days. A fund has been started here to assist settlers who have lost their all by the floods. It is no uncom mon sight now to see houses and barns floating down the river. Reports of the drowning of some Indians have been received, but cannot be verified.

BOATS SUCCEED RAILROADS.

Tracks Into Portland Under Water and Boats the Means of Communication. PORTLAND, Ore., May 31.-No trains have arrived from the east over the Union Pacific since last Saturday. The company has put

on boats at Umatilla, but is experiencing great difficulty in making portages at The Dalles and Cascade. Telegraph communication along the Columbia is cut off to Umatilla and the only means of reaching eastern Oregon and Washington is by a circuitous route. Miles of the Union Pacific track along the Columbia is washed out, and it will probably be more than a week before another train reaches this city over that route. The Northern Pacific managed to keep passengers and mails moving by pressing into service the large transfer boat used at Kalama. The Southern Pacific has experienced only slight delays. The northern part of the city, back as far as Ninth street, is a vast lake, and business in the whole sale district is entirely suspended. The absence of any current in the Willamette river makes navigation by boats very easy, and hundreds of small boats are being used along Front, First and Second streets from

Alder street to the north end. The river was at a standstill at 3 p. m. A telephone message from the assistant government engineer at the Cascade Locks states that the bulkhead is leaking, but he does not think that it will go out nor that any serious damage is likely to be done The damage to the Union Pacific track be tween Portland and Umatilla will, it has thought, reach into the hundreds of thou-

sands. Great damage has been done to farmers living along the Columbia river in the loss of stock and crops. In the city but little damage has thus far resulted. Owing to the slow and gradual rising of the water, mer-chants had ample time to get their goods out of the way. The latest intelligence from the upper Columbia region was that the river at Umatilla and Riparla was stationary. It is generally believed that the water in this city has about reached its extreme height. Its subsidence will be very slow owing to the large area over which the water is spread. The Western Union tonight lost all wires to the north and Seattle and Tacoma are totally cut off as far as telegraphic communication is concerned. Twenty miles of poles along the Columbia are covered by water and it will probably be a week before they can be repaired.

Flooded by a Broken Dam. MINNEAPOLIS, May 31 .- A Spokane, Wash., special to the Journal says: A telegram received this moring from Coulee City states that the flood at the village of Con-conully was a second Johnstown, caused by the breakage of a dam above the village. Everything went before the advancing wall of water. However, but one life is as yet known to have been lost—that of Mrs. Al-mira Keith. The village was located in a canon a hundred feet wide, and through this narrow channel the flood poured with resistless force, sweeping everything with it. The property loss is estimated at \$150,-
